Election

Claims 1-97 are generic to a plurality of disclosed patentably distinct species comprising a composition comprising beta-tocopherol or delta-tocopherol or gamma-tocopherol or a flavonoid and/or flavonoid derivative or both a non-alpha tocopherol and a flavonoid, as disclosed throughout the subject specification. Applicants are required under 35 U.S.C. 121 to elect a single disclosed species, even though this requirement is traversed.

Should Applicants traverse on the ground that the species are not patentably distinct, Applicants should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the Examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Applicants are advised that to be complete, the reply to this requirement must include an election of the invention to be examined even though the requirement is traversed (37 C FR 1.143).

Applicants are reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 C FR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the

Art Unit: 1614

application. Any amendment of inventorship must be accompanied by a request under 37 C FR 1.48(b) and by the fee required under 37 C FR 1.17(I).

Any inquiry concerning this communication from the Examiner should be directed to Phyllis Spivack whose telephone number is (703) 308-4703.
